

Power BI Training

Empower your business users by mastering the essential Power BI skills to make use of your data and build compelling and interactive reports. No matter what your skillset is, our range of hands-on trainings are designed for users with no experience to more advanced developers. What are you waiting for? Sign up now!

Get trained on Power BI with us and help your organisational users gain value from your business data.

TRAINING OPTIONS

FOUNDATION TRAINING (4 OR 8 HOURS)

Get started with Power BI the right way. This training session is designed to fast-track your Power BI knowledge by covering all the necessary foundation skills. You'll get an introduction to importing data and creating reports with Power BI Desktop, publishing to the Power BI Service, and using the Power BI Mobile App.

INTERMEDIATE TRAINING (8 HOURS)

Advanced business users can build on top of their Power BI foundation knowledge. You will learn how to cleanse, transform, and create relationships with data. You will build drill-down and drill-through reports and also be introduced to calculated columns and measures using DAX and Quick Measures.

DATA SHAPING & MODELLING (4 OR 8 HOURS)

Learn how to shape disparate data sources to design optimised data models using Query Editor and M, Power BI's query language. Gain an advanced understanding of DAX, Aggregate and Composite Models to enrich your data model and reports.

ADVANCED VISUALISATIONS (4 HOURS)

Bring your reports and dashboards to the next level. During this training, you will learn the art behind effective data visualisations, layout structures, and transitions to help you construct your reports that tell a powerful data story.

SECURITY, COLLABORATION, GOVERNANCE (2 HOURS)

Find best practices for security and governance for Power BI reports. Learn more about team collaboration in Power BI workspaces.

KEY BENEFITS & OUTCOMES

Training for all levels & skillsets

With our range of Power BI training modules, you will find the training that best suits your users. From creating simple visualisations and dashboards to writing powerful M queries, Intergen have training modules to serve all knowledge levels.

Empower your business users

At a low fixed price cost, the ROI is high. Invest in training your business users to create self-served reports and gain value from your business data to make informed decisions.

Leading analytics & reporting solution

Within these training sessions, your business users will be able to utilise the leading Business Intelligence tool in the Gartner Magic Quadrant.

Guided process

Our team of Power BI experts will help you achieve your Power BI, reporting, and visualisation goals. After the training, we commit to connecting with you to ensure that your expectations are being met at our exceptional Microsoft Gold Partner standard.

Require more training?

Your data is unique to your business and reporting needs. Intergen also offers tailored training sessions for your business users using your own data. We can also provide a Training Needs Analysis to ensure your users get the right level of training.

WHY INTERGEN IS THE BEST AT DATA INSIGHTS?

We are easy to work with

Whether we are working remotely or onsite with you, collaboration is at the heart of how we work.

We earn our expert status

As New Zealand's Microsoft 2018 Partner of the Year and Data & AI Winner, we can prove that we have the proficiency to take your business on a valuable data-driven journey.

You can feel our passion

We have very strong values and work ethic, which when paired with our love for what we do, helps us bring you meaningful results.

We unite as one team

We want to be immersed in your business culture and bring you into ours, so that we can deliver you the best tool for achieving your business goals.
