

Jumpstart Power BI

Unlock the potential of your data through Power BI

Power BI empowers your users to get a 360-degree view of your organisation. Take the first step in your Power BI journey to become a data-driven organisation and unlock valuable and actionable insights from your data.

How will this work?

In a two week timeframe, we will help you recognise the benefits of accurate analytics and deliver you rich and personalised reports. These will capture your target areas and empower you to make more effective decisions towards your business goals.

THIS AGILE ENGAGEMENT WILL BE BROKEN DOWN INTO FIVE STEPS

BUSINESS ASSESSMENT & SCOPING (1 DAY)

1. One of our skilled Data Insights consultants will work with you to get an understanding of your business requirements and assess the current state of your reporting infrastructure.

DATA ANALYSIS & PREPARATION (3 DAYS)

2. During this phase we will work with your team to analyse and prepare the data for Power BI.

DASHBOARD DESIGN & IMPLEMENTATION (3 DAYS)

3. We will design the reporting data model and discuss and build data visualisations to meet your reporting needs.

REVIEW & FINE TUNE (2 DAYS)

4. We will have an initial review with you and address any gaps as we begin to finalise the dashboard.

HANDOVER & POWER BI ROADMAP (1 DAY)

5. We will walk through the final dashboard with you and discuss the transformation of Data Insights in your business from hindsight to insight to foresight.

KEY BENEFITS

Designed for you

A tailored solution around your data and business needs will allow you to understand the potential of your data and truly understand the value it brings to your organisation.

Quick & easy win

Developing an end-to-end Data Insights solution can be an extensive process. Within two weeks, you will be able to interact with your data and gain valuable insights with just a few clicks.

Low cost, high value

At a low fixed price cost, the ROI is high. By the end of the two weeks you will have gained more value by having the capability to access insights that may have not been visible in the past.

Ready to use solution

A fully functional Power BI dashboard will be accessible to your users at the end of the engagement. The solution can also be used as building blocks for more ambitious business goals by applying the lessons learnt from this engagement.

Competitive advantage

Ability to access and interact with your data will lead to faster and more accurate decision making in your business, leading to a competitive advantage in your business industry.

Guided process

Our team of Power BI experts will help you achieve your Power BI goals. We commit to being available daily during the two week engagement, and will continuously connect with you to ensure that your expectations are being met at our exceptional Microsoft Gold Partners standard.

WHY INTERGEN IS THE BEST AT DATA INSIGHTS?

We are easy to work with

Whether we are working remotely or onsite with you, collaboration is at the heart of how we work.

We earn our expert status

As New Zealand's Microsoft 2018 Partner of the Year and Data & AI Winner, we can prove that we have the proficiency to take your business on a valuable data-driven journey.

You can feel our passion

We have very strong values and work ethic, which when paired with our love for what we do, helps us bring you meaningful results.

We unite as one team

We want to be immersed in your business culture and bring you into ours, so that we can deliver you the best tool for achieving your business goals.

Conditions: Data source should be a compatible file format with Power BI, e.g. Excel or CSV. Deliverable will be 1 Dashboard consisting of 3 report pages. 1 review iteration included.

Contact us today for a demonstration and discussion about how our fast-track Power BI can transform the productivity of your business.
